

Dear Internship Committee:

Last summer, I had the privilege of supervising Andy Vallentine during his internship with The Dow Chemical Company. His role as a summer intern in our National Student Program encompassed a broad range of projects and responsibilities that required initiative, organization and teamwork.

To cite an example, Andy was very involved in producing, shooting and editing several recruiting programs designed to attract the best and brightest talent to Dow. These programs are now in use and getting people interested in finding out more about our company!

In addition, he was involved in day-today activities of pre-production planning, location and studio production, graphics creation, editing, and distribution. He also assisted in live events.

Although we would love to have him back at Dow for another summer, I believe his can do spirit and initiative make him an ideal candidate for this internship. If you have any questions, please don't hesitate to give me a call at 989-636-4410.

Best regards,

Ernest P. Weiss
